Services and Facilities in Collier County

The Solid and Hazardous Waste Management Division manages the collection of household waste, recyclable material, yard waste and bulky service throughout Collier County.

Waste Management, Inc. of Florida and Waste Pro of Florida are the contracted haulers in Collier County for residential solid waste collection. They service all areas within the county with the exception of the City of Naples.

In addition to curbside solid waste, recycling, yard waste, and bulky collection, Collier County operates several recycling drop-off centers to collect and properly dispose of household hazardous waste. Items that can be recycled may also be dropped off at these conveniently located centers.

The mission of the Collier County Solid and Hazardous Waste Management Division is to deliver the best value, highest quality, sustainable solid waste management services that meet our customers' expectations while protecting the environment. This serves to extend the life of the landfill and preserve beautiful Collier County.

For more information about Collier County's programs, visit colliercountyfl.gov/solidwaste. Please call our friendly customer service team at (239) 252-2380 for specific information.

Collier County
Solid & Hazardous Waste Management

Curbside Collection and Disposal Services

Solid Waste Curbside Collection and Disposal Services include:

- Twice-a-week **household waste** collection
- Once-a-week **recycling** collection
- Once-a-week **yard waste** collection
- Once-a-week collection of **bulky** items
- Call to schedule collection of **specialty bulky** items (appliances, electronics, tires, batteries)

Place your household waste in the green top cart and your recyclables in the yellow top cart, ensuring that the lids are fully closed. The trash and recycling carts are assigned to your home's address, not to you as the homeowner. If you move, please leave the carts at the residence. Each dwelling is entitled to two recycling carts and one trash cart. Additional carts can be purchased if needed.

You must place your carts and materials curbside by 6 a.m. on your collection day and have them removed by 6 a.m. the following day. Pick-up can occur anytime from 6 a.m. to 6 p.m. on your collection day. Carts and materials must be placed at least three feet from each other, mailboxes and other obstacles.

For inquiries regarding solid waste or recycling, call Customer Service at (239) 252-2380 Monday through Friday from 8 a.m. to 5 p.m. Select option two for Solid Waste and then option one for assistance with solid waste services such as delivery of new, replacement or additional carts.

If your cart is missing, stolen or damaged, it will be replaced free of charge. If the cart must be replaced because of customer negligence, you may be charged the replacement price plus a delivery fee. Residents are responsible for cleaning their own carts. Exchanges of carts will not be made for soiled carts.

If you find a sticker on your cart, please read it carefully. Remove any nonconforming materials or contaminants.

HOLIDAY COLLECTION SCHEDULE

There will be no collection on the following holidays:

- **Fourth of July**
- **Thanksgiving Day**
- **Christmas Day**

There are no makeup days. If your collection falls on one of these holidays, your trash, recycling, bulky items and yard waste will be collected on your next scheduled day.

Bulky Items and Yard Waste

You may place bulky items at curbside on your recycling collection day. Bulky items include furniture, bicycles and other items too large to fit in your green trash cart. Bulk items should not exceed 4 feet and/or 50 pounds.

Please call (239) 252-2380, 48 hours in advance for specialty bulky waste collection. Scheduled specialty bulky items include:

- **APPLIANCES** such as refrigerators, stoves, dishwashers, washers and other household appliances. All contents and liquids must be removed, including doors to avoid entrapment of children.

- **ELECTRONICS** To prevent fires, all batteries must be removed. Visit page 14 for a list of drop-off locations.

- **TIRES and VEHICLE BATTERIES** You may dispose of two vehicle batteries and four standard vehicle tires up to 33 inches with or without rims per month.

CONSTRUCTION & DEMOLITION DEBRIS

You can dispose of debris from small do-it-yourself projects in your green waste cart. If it doesn't fit in your cart, DO NOT place it at the curb. Instead, have a contractor remove it or take it to the Collier County Landfill, Immokalee Transfer Station, or a private facility for proper waste disposal.

Expert tip! *You can make a difference in our community by donating used items. Check out* ***Collier County's Reuse Directory*** *at collier.gov/reuse to give them a second life instead of sending them to the landfill.*

YARD WASTE is collected curbside on your recycle collection day. Yard waste bundles, yard waste paper bags and personal containers are limited to 10 total per collection. During the holidays, Christmas trees are collected as yard waste. *Remove tinsel and decorations.*

To ensure your yard waste is collected please follow these steps:

1 BUNDLE IT

Bundles must weigh less than 50 pounds, be secured with twine that supports the weight of the bundle and no longer than 4 feet. Branches may not be larger than 4 inches in diameter.

2 BAG IT

Use ONLY paper yard waste bags or paper grocery bags. Plastic bags will not be accepted.

3 CONTAINER IT

You may use up to 45-gallon personal containers that weigh less than 50 pounds when filled. The yard waste may not extend more than 12 inches over the top of the container.

Household Hazardous Waste

Every day, we use many products to clean, repair, and maintain our homes, cars, gardens, and pools. Many of these products contain substances that are harmful to people, pets, or our environment. Stay safe by disposing of them properly, keeping them in original containers with tight lids and don't mix them together.

PROPER DISPOSAL

Always dispose of hazardous products properly and responsibly. Do not pour them on the ground or into storm drains. Bring household hazardous waste to your nearest drop-off center for environmentally safe disposal. Some items may be subject to a small disposal fee. Never place chemicals or other hazardous materials in your trash or recycle cart, this can result in a truck fire.

Know the Hazardous Products in Your Home

INSIDE THE HOUSE

- Aerosol sprays
- Cleaning products
- Cooking oils
- Drain cleaners
- Fluorescent bulbs
- Laundry detergents
- Batteries - all types
- Fire extinguishers
- Sharps (needles) placed in a sturdy plastic container with a secure lid

Expert tip! *For locations where medications are accepted visit drugfreecollier.org*

IN THE GARAGE

- Automotive fluids, used motor oil and filters
- Auto and boat batteries
- Gas, glues and lubricants
- Thermometers
- Paint, stains, sealers, solvents and cleaners
- Flares and ammunition

FOR THE YARD

- Weed and insect killers
- Fertilizers
- Chlorine and pool supplies
- Propane tanks
- Rat poison

Recycle Drop-Off Centers also accept the following:

- Electronics
- Cardboard
- Scrap Metal
- Paper for Shredding
- Tires
- Polystyrene Foam

See back page for locations. For a current list of acceptable material and rates, visit collier.gov/dispose

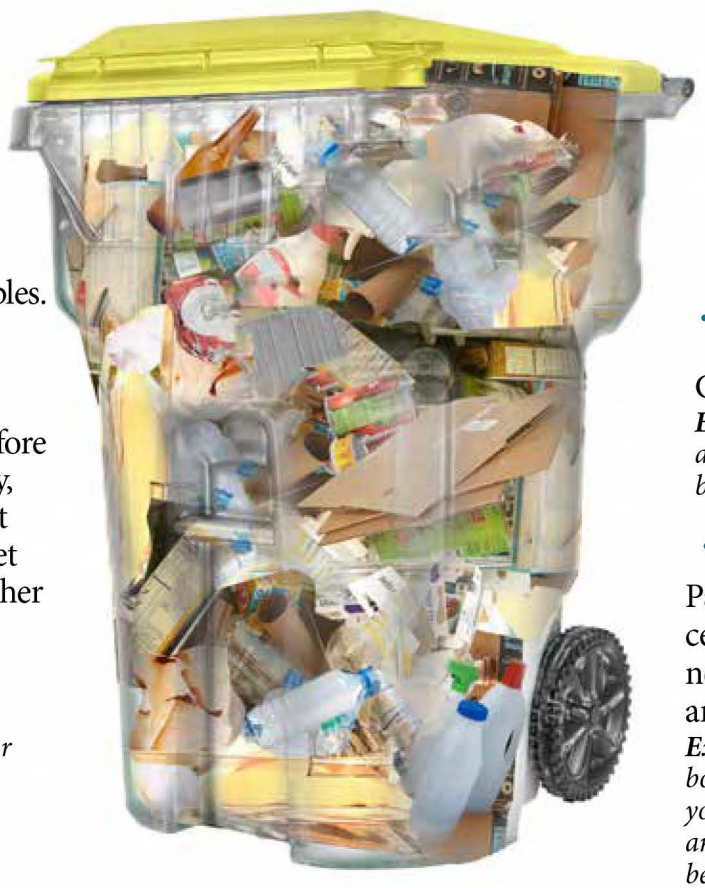

Recycle Right

It's as easy as

1 2 3

1. Keep food and liquid out of your recycling.
2. No loose plastic bags and no bagged recyclables. Recyclables must be loose in your cart.
3. Place carts curbside before 6 a.m. on collection day, or after 6 p.m. the night before, leaving three feet from each other and other objects for automated collection.

Expert tip! *Reuse plastic bags or recycle them at your local participating retail store.*

Make every attempt to recycle these items:

Plastic bottles and containers.

Expert tip! *Recycle plastic only if shaped like a bottle, jar, jug, tub, or cup. Leave caps on.*

Metal food and beverage cans made of tin, aluminum and steel.

Expert tip! *Rinse all cans of residue before placing in the cart.*

Glass bottles and jars.

Expert tip! *Clear, brown and green colored glass bottles and jars.*

Paper, cardboard, cups, cereal boxes, magazines, newspapers, milk cartons and juice boxes.

Expert tip! *Flatten larger boxes to allow more room in your cart. Soiled, wet paper, and greasy pizza boxes belong in the trash.*

Multi-family Recycling

If you live in a condo or multi-family complex, use yellow-top containers for recycling. See the recycling page in this booklet or on our website for a complete list of accepted recyclables. Consult your property manager for disposal of bulky items.

Recycling is mandatory for all multi-family properties under Ordinance 2009-56.

Let us help inform your community about the best ways to preserve the environment or if need assistance setting up a recycling program call (239) 252-2380 or email recycling@collier.gov.

CHRISTMAS TREE DISPOSAL

When the holiday is over, contact your multi-family property manager for on-site instructions or dispose of natural Christmas trees at your local recycling drop off center. *Remove tinsel and decorations.*

Be Bear Wise

Tips to avoid attracting bears:

- All solid waste containers and plastic bags containing household waste should be secured at all times prior to placing curbside for collection.
- **DO NOT** pour chemicals over your solid waste as this creates dangerous fumes and can start a chemical fire.
- Wash and deodorize your carts regularly to reduce food odors that can attract bears.

To report a bear sighting, contact the FWC Wildlife Alert Hotline at (888) 404-3922.

IRRIGATION

Landscape irrigation rules apply to all water sources, including private wells and ponds. Odd-numbered addresses are allowed to water on Mondays, Wednesdays and Saturdays, while even-numbered addresses can water on Tuesdays, Thursdays and Sundays. Irrigation is not permitted on Fridays and it is also prohibited between the hours of 10 a.m. and 4 p.m.

Disaster Debris Removal

Debris generated by a declared emergency event requires special placement for collection. Here is your guide to separating and stacking disaster generated debris.

- Keep debris separate from your regular household waste and recycling.
- Debris must be neatly, stacked, piled or placed curbside by debris type.
- Don't place any debris close to trees, poles, cars or other structures. This includes fire hydrants, mailboxes and meters.
- Don't block roadways, sidewalks, traffic signs, swales or storm water structures.
- If you don't have a sidewalk, ditch or utility line in front of your house, place debris at the edge of your property before the curb.
- Any debris placed between your home and the sidewalk will not be picked up.
- Debris will be collected from the curb on multiple passes by a mechanical claw.
- Avoid placing debris on paver driveways or other areas that might be susceptible to inadvertent damage.

PRIVATE GATED COMMUNITIES & COMMERCIAL PROPERTIES

The level of storm impact determines Federal Emergency Management Agency (FEMA) collection eligibility for private gated and commercial properties. Visit our website at the bottom of this page for guidance following any declared emergency event.

Expert tip! *Stay up to date after a storm by following Collier County's Facebook Page and the website at the bottom on this page.*

Please separate debris by type:

DISASTER RELATED VEGETATIVE DEBRIS – logs, leaves, plants and tree branches.

CONSTRUCTION AND DEMOLITION DEBRIS – building materials, drywall, furniture, carpet and mattresses.

ELECTRONICS– computers, radios, televisions.

APPLIANCES & WHITE GOODS– air conditioners, washers, dryers, refrigerators. Remove all perishables and doors.

HOUSEHOLD HAZARDOUS WASTE – oils, oil-based paints, pesticides and lawn chemicals. These may also be brought to a county drop-off center.

Expert tip! *Avoid having hazardous waste mixed with other piles to avoid potential spills and fires.*
